Chennai, India | +91 8925701193 | shaisanthoshsiva2006@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Full Stack Developer specializing in modern web applications using React, JavaScript, Python, Java, SQL, and REST APIs. Experienced in building responsive user interfaces, scalable backend systems, and AI-powered software solutions. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, and Computer Networks. Passionate about developing production-ready applications that solve real-world problems through clean architecture and efficient design.

EDUCATION

Velammal Institute of Technology Chennai, India

B.E. in Computer Science and Engineering Aug 2023 – May 2027

- **CGPA:** 8.0 / 10.0

TECHNICAL SKILLS

- **Languages:** Java, Python, JavaScript, C, SQL
- **Frontend:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- **Backend:** Java, Python, REST APIs
- **Databases:** MySQL, MongoDB
- **Developer Tools:** Git, GitHub, VS Code, Postman, Figma
- **Core Subjects:** Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

PROJECTS

AquaBloom AI | *HTML, CSS, JavaScript, AI Integration*

[GitHub](#)

- Developed an AI-powered aquaculture monitoring platform to identify harmful algal bloom risks and support data-driven decision making for fish and shrimp farmers.
- Designed responsive and user-friendly interfaces optimized for desktop, tablet, and mobile devices using modern frontend development practices.
- Implemented interactive dashboards and visualization components to present environmental monitoring data and predictive insights.
- Improved application usability and scalability through modular architecture and performance-focused development techniques.

GenAI BI Platform | *React, JavaScript, AI Integration*

[GitHub](#)

- Built a Generative AI-powered Business Intelligence platform that transforms business data into actionable insights and automated analytical reports.
- Developed responsive dashboards and interactive visualizations to improve data accessibility and decision-making efficiency.
- Integrated AI-driven analytics workflows to automate report generation and enhance user productivity.
- Implemented scalable frontend architecture and optimized data processing for improved application performance.

Portfolio Website | *React.js, Tailwind CSS, JavaScript*

[GitHub](#)

- Developed a fully responsive portfolio website showcasing projects, technical skills, and software development experience.
- Applied modern UI/UX principles to create intuitive navigation and engaging user experiences.
- Optimized website performance, accessibility, and cross-device compatibility.
- Implemented reusable React components and scalable frontend architecture.

ACHIEVEMENTS

- Solved 300+ Data Structures and Algorithms problems across coding platforms.
- Built multiple full-stack web applications using modern frontend and backend technologies.
- Developed AI-powered software solutions addressing real-world industry challenges.
- Continuously improving software engineering expertise through project development and technical learning.
